

COVAX Small Grant Application Timeline

Applications are reviewed on a weekly basis, on Thursdays. Applicants can expect to have their applications reviewed within a week of submitting their applications (on Thursday).

Upon review, if the application is complete with all required documents and information, applicants can expect to receive an approval status and grant agreement by the following Monday.

If applications are complete and need no further clarification or changes, applicants can expect to be awarded grant funds within a two-week time frame.

This timeframe can be delayed if changes or clarification are requested from the review team.

It is suggested that applicants submit applications at least **4 weeks** in advance of the date of their planned event.
